Objective

As a B.Tech student with expertise in web development and coding, I excel in creating responsive, userfriendly web applications with seamless frontend and backend integration. Passionate about technology, I stay updated with industry trends to deliver innovative solutions. Dedicated to continuous learning, I aim to contribute meaningfully to an organization's growth through creativity, collaboration, and commitment.

Education

Degree	Institution	Duration	GPA/Marks
B.Tech in Computer Science	Parul University, Gujarat	2021 – May 2025	GPA: 6.8
Intermediate (MPC)	Resonance, Khammam	2019 – 2021	Marks: 928

Projects

SmartFee Alert: Deadline Notification System and Payment History Analytics

[Access Website](#) 

- Developed a React-based Fee Management Notification System to improve communication in educational institutions.
- Automated fee reminders and centralized payment history, reducing missed payments and ensuring compliance.
- Enabled students to receive timely email notifications and easy access to payment records.

A Web-Based System for Community-Driven Water Issue Detection

[Access Website](#) 

- Created a website to identify and classify water-related issues using image uploads and advanced analysis for quick emergency response.
- Enabled collaboration between the public and responders to improve decision-making and resource allocation.
- Promoted sustainable water management through innovative tools and solutions.

Technical Skills

- **Programming:** C, Java
- **Database:** SQL, MongoDB
- **Frontend Development:** HTML, CSS, JavaScript, React
- **Backend Development:** Node.js, Express.js
- **Tools:** Git, Postman, Vercel

Certificates

- Core Java (Coursera)
- Machine Learning (Coursera)

Achievements

- Participated in Web-o-stav
- Participated in Codewars
- Secured 2nd prize in Robo-Rumble

Soft Skills

- Quick learning
- Logical thinking
- Interested in solving real-world problems
